FOR IMMEDIATE RELEASE

SHORT WALKS TO GREAT VIEWS AT ALPINE RESORTS

A great new walks brochure is now available. It showcases a number of short walks at Victoria's Alpine Resorts which offer great views.

Our Alpine Resorts are the place to be during winter, with lots of snow and all the excitement that goes with it. They are also great places to visit in summer.

Breathe in the cool alpine air, relax, be inspired – and go for a walk.

The new brochure details a series of 'Short Walks to Great Views' at each Alpine Resort, ranging from an easy 500m stroll at Lake Mountain to classic walks on the Bogong High Plains.

"You don't have to be super-fit to enjoy some of the best short walks on the roof of Victoria", says Andrew Fairley, the Chairperson of the Alpine Resorts Co-ordinating Council.

Mr Fairley recommends that everyone pick up a copy of the new 'Short Walks to Great Views' brochure and experience the joys of the High Country this summer.

As well as the short walks, Victoria's Alpine Resorts offer great food and fine wine from the restaurants and cafes in the resort villages, and a range of other activities ranging from the adrenalin rush of mountain biking to the relaxation of a wellness centre. A wide range of on-mountain accommodation is also available.

The new walks brochure is available from resort and parks offices, as well as the usual visitor information centres.
